408.552 Contracts for state projects; minimum wage provisions, exceptions. [M.S.A. 17.256(2)]

Sec. 2. Every contract executed between a contracting agent and a successful bidder as contractor and entered into pursuant to advertisement and invitation to bid for a state project which requires or involves the employment of construction mechanics, other than those subject to the jurisdiction of the state civil service commission, and which is sponsored or financed in whole or in part by the state shall contain an express term that the rates of wages and fringe benefits to be paid to each class of mechanics by the bidder and all of his subcontractors, shall be not less than the wage and fringe benefit rates prevailing in the locality in which the work is to be performed. Contracts on state projects which contain provisions requiring the payment of prevailing wages as determined by the United States secretary of labor pursuant to the federal Davis-Bacon act (United States code, title 40, section 276a et seq) or which contain minimum wage schedules which are the same as prevailing wages in the locality as determined by collective bargaining agreements or understandings between bona fide organizations of construction mechanics and their employers are exempt from the provisions of this act.

A contracting agent, before advertising for bids on a state project, shall have the commissioner determine the prevailing rates of wages and fringe benefits for all classes of construction mechanics called for in the contract. A schedule of these rates shall be made a part of the specifications for the work to be performed and shall be printed on the bidding forms where the work is to be done by contract. If a contract is not awarded or construction undertaken within 90 days of the date of the commissioner's determination of prevailing rates of wages and fringe benefits, the commissioner shall make a redetermination before the contract is awarded.

PREVAILING WAGES ON STATE PROJECTS

Sec. 4. The commissioner shall establish prevailing wages and fringe benefits at the same rate that prevails on projects of a similar character in the locality under collective agreements or understandings between bona fide organizations of construction mechanics and their employers. Such agreements and understandings, to meet the requirements of this section, shall not be controlled in any way by either an employee or employer organization. If the prevailing rates of wages and fringe benefits cannot reasonably and fairly be applied in any locality because no such agreements or understandings exist, the commissioner shall determine the rates and fringe benefits for the same or most similar employment in the nearest and most similar neighboring locality in which such agreements or understandings do exist. The commissioner may hold public hearings in the locality in which the work is to be performed to determine the prevailing wage and fringe benefit rates. All prevailing wage and fringe benefit rates determined under this section shall be filed in the office of the commissioner of labor and made available to the public.

This record shall be available for reasonable inspection by the contracting agent or the commissioner.
